HE new Firestone High Speed Tire for 1934 is the greatest tire Firestone has ever built. With its wider, flatter tread, greater thickness, deeper non-skid, more and tougher rubber, and greater non-skid contact with the road, you get more than 50% longer non-skid mileage. This new development is made possible by the Firestone patented process of Gum-Dipping, whereby the cotton fibers inside the high-stretch cords are soaked and coated with pure liquid rubber. This provides greater strength,
